Subject: Enquiry about the upcoming Excel automation course

Hello,

I found your office automation course listing and I'm interested in enrolling a small group from our finance team.

Details about our group:

- 6 participants, all finance department employees
- Preferred format: two half-day sessions rather than one full day
- We would need this completed before the end of the quarter

Could you tell me:

1. Is there a discount for groups of 5 or more?
2. Do you provide the course materials in both Hebrew and English?
3. What is the earliest available start date?

Looking forward to your response.

Best regards,

Dana Kessler
